

Greetings to all of you Minong Flowage Stakeholders:

At the request of Frank Scalzo, Manager of Washburn County's Highway Department, and therefore the Minong Flowage dam, the Minong Flowage Association is providing the following message:

Because of the weather outlook, the repairs to the dam have been put on hold until spring. We are unable to find a product for the repair that will work below 40 degrees. I apologize for any inconvenience this has caused anyone. Could you please send out one of your mass emails to notify the folks on the Flowage. Thanks.

Frank Scalzo

October 5, 2018

#### NOTE FROM THE MINONG FLOWAGE ASSOCIATION'S BOARD OF DIRECTORS:

In general, the Minong Flowage Association only directs communications to it's dues-paying membership.

Messages such as the item offered above, are issued to a broader group we refer to as "the Minong Flowage Stakeholders" (property owners on the Minong Flowage, Cranberry Flowage, Cranberry Lake, DNR staff, County staff, etc.). We do so as a service and loyalty to the broader community.

It is important to note that the MFA Board of Directors are un-paid volunteers who work on your behalf during what would otherwise be their "spare time".

If you appreciate such communications, we respectfully ask that you:

- \* Keep us apprised of you preferred email address via our website: [MinongFlowage.ORG](http://MinongFlowage.ORG)
- \* Join our membership. Annual dues are \$25. Details at our website: [MinongFlowage.ORG](http://MinongFlowage.ORG)
- \* Encourage other "stakeholders" to do the same.

Your support of our efforts is genuinely appreciated.

Best regards,

Dan Maxwell

Minong Flowage Assoc. - President
