

Minong Flowage 2013 / 2014 Post Draw-down survey (Summary)

Total number of responses = 145

Do you live on the lake year round?

41 - Yes
104 - No

Water Wells

Was your well fully functional throughout the drawdown?

121 - Yes
24 - No

Did you incur expenses relating to your water supply?

17 - Yes
128 - No

If you incur expenses relating to your water supply what was the approximate cost?

129 - \$0
7 - \$1 to \$499
2 - \$500 to \$999
0 - \$1,000 to \$1,4999
7 - \$2,500 or more

Shoreline Issues

Has your shoreline returned to "pre-drawdown" condition?

105 - Yes
40 - No

Did any shoreline trees die as a result of drawdown conditions?

88 - Yes
57 - No

Approximately how many trees did you lose on your lake property?

58 - Zero trees died
40 - 1 to 4 trees died
24 - 5 to 9 trees died
8 - 10 to 14 trees died
15 - 15 or more trees died

Woody Debris

Did you have problems with "woody debris" along your shoreline?

84 - Yes
61 - No

Did you have problems with "woody debris" in the main body of the lake?

75 - Yes
70 - No

Are you aware of anyone experiencing personal injury(s) from "woody debris"?

1 - Yes
144 - No

Fishing Quality

Has "the fishing experience" changed after the drawdown?

13 - Better
41 - Worse
54 - About the same
37 - Don't fish

Future Draw-downs

Would you like to see periodic winter drawdowns used in the future for EWM control?

74 - Yes
34 - No
37 - Not Sure
